1   Data information notice in accordance with Regulation (EU) 2023/2854 (EU Data Act) for connected products

Products:

- Bosch Aqua 4000 S*
- Bosch Aqua 5000 S*
- Bosch Aqua 8000i
- Buderus Logawater soft 400*
- Buderus Logawater soft 500*
- Buderus Logawater soft 800i

*Applicable with wireless 2.4GHz accessory installed.

Connected products and related services of Bosch Thermotechnik GmbH generate various data and information during their use. The following provides information about the data transferred and made available when using the product and related services, how to access this data, and your data rights.

2   Type, format, and estimated volume of product data

The following data may be generated during operation of the product.

The data generated varies depending on the specific use of the product.

Types of product data

- Physical data: Current data (e.g. temperature, pressure, power, energy).
- Device identification data (e.g. serial number, hardware and software version).
- Status data (e.g. on/off, present/not present).
- Error messages.
- Setting values / user configurations (e.g. room setpoint temperature, time programs).

Estimated volume

The amount of data varies depending on the type of data and the use of the Service, with data volumes per data point ranging from 10 Byte/h to 100 kB/h.

Data format

No data export possible.

Currentness of data

The data in the product is generated during use and operation in real time and continuously.

3   Storage location and retention period

The data is stored in the product.

The data is transferred to the mobile device using the HomeCom Easy and MyBuderus app.

The data is periodically overwritten and deleted during a reset or power cycle of the gateway.

4   Access modalities

Direct data access is not available.

Data access requires the use of:

- a mobile device compatible with the named applications.
