

1 Data information notice in accordance with Regulation (EU) 2023/2854 (EU Data Act) for connected products

Products:

- Radiator thermostat
- Underfloor thermostat
- Repeater

Connected products and related services of Bosch Thermotechnik GmbH generate various data and information during their use. The following provides information about the data transferred and made available when using the product and related services, how to access this data, and your data rights.

2 Type, format, and estimated volume of product data

The following data may be generated during operation of the product. The data generated varies depending on the specific use of the product.

Types of product data

- Physical data: Current data (e.g. temperature, pressure, power, energy).
- Device identification data (e.g. serial number, hardware and software version).
- Status data (e.g. on/off, present/not present).
- Error messages.
- Setting values / user configurations (e.g. room setpoint temperature, time programs).

Estimated volume

The amount of data varies depending on the type of data and the use of the product and related services, with data volumes per data point ranging from 0,1 kByte/h to 25 kBytes/h.

Data format

The data is stored within the product in various data formats and, as part of a data export, is provided at least in the following data format:

- JSON
- TXT

Currentness of data

The data in the product is generated at an interval of 5 minutes.

3 Storage location and retention period

The data is stored in the product.

The data is transferred to the mobile device using the following applications:

- Bosch EasyControl
- Bosch HomeCom
- Buderus MyMode
- MyBuderus

If there is an internet connection, the data is transferred to the manufacturer's servers and saved.

Data stored on the device itself is deleted only after the user performs a factory reset.

4 Access modalities

You can access the data generated and potentially stored within the product as follows:

Local interface:

- Local Mode through the following master devices:
 - Bosch CT200
 - Bosch K40 RF
 - Buderus Logamatic TC100.2
 - Buderus MX400
 - Connect Key

Applications:

- Bosch EasyControl
- Bosch HomeCom
- Buderus MyMode
- MyBuderus

Data access requires the use of:

- a mobile device compatible with the named applications.
